Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Friday 17 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry and cloudy, odd sunnier spell slightly colder.

Today:
Remaining settled on Friday with any mist or fog slow to lift. Largely cloudy across the region, however any clearer spells slowly filling in during the day. Temperatures down a little on recent days. Maximum temperature 7 deg C (45 deg F).

Tonight:
Cloudy but dry overnight, mixture of low cloud and fog developing across the region, giving poor driving conditions in places. Minimum temperature 2 deg C (36 deg F).

Saturday:
Cloudy and dry for most, any mist and fog slow to lift into low cloud during the morning, temperatures down a notch on Friday's. Maximum temperature 6 deg C (43 deg F).

Outlook for Sunday to Tuesday:
Largely settled Sunday and into the new week, but on the cloudy side with limited bright spells. Continued risk of fog and frost under overnight cloud breaks. Gradually turning colder.
